

MAREK GERSZENDORF

JUNIOR FRONT-END DEVELOPER

ABOUT ME

I work as a junior machine designer, but programming is my great passion. I became interested in this topic at the beginning of junior high school. I have been learning programming more seriously for a long time now, with a view to the future. Mainly interested in web technologies but I am ready to learn other languages. Apart from programming, I love new technologies and startups.

EXPERIENCE

JUNIOR MACHINE DESIGNER / 07.2020 - NOW INFOTEC CNC

One of my main tasks is the preparation of documentation for technical machinery and creating programs for sheet metal processing.

DESIGN DEPARTMENT ASSISTANT / 07.2019 - 08.2019 INFOTEC CNC

Summer job where I got to know CAD software. I learned to design machine parts and gained professional experience.

MACHINE DESIGNER / AUTOMATIC / 03.2019 - 04.2019 INFOTEC CNC

An internship during which I saw what the work of automation and designer looks like. During this period, I mainly dealt with programmable PLC and Arduino controllers.

PROJECTS

POMODORO APP

An application that allows you to learn using the pomodoro technique. Everything was programmed using the React framework

Repository: <https://github.com/mgerszendorf/Pomodoro-app>

TO-DO APP

An application designed for better time organization. It allows you to set the priority of tasks and counts already completed. Adds a due date for the task. It all connects to the MongoDB Atlas database

Repository: <https://github.com/mgerszendorf/Todo-app>

SHORTLY

The site is intended to shorten links. This is a challenge prepared by frontaretteor.io. The link is taken from an external API.

Repository: <https://github.com/mgerszendorf/Shortly>

RECOVER

Recover is one of the first sites I created. The graphic design was made by Marcin from Dutkiewicz Design.

Repository: <https://github.com/mgerszendorf/Recover>

ACME

Acme is a hotel website. Everything was programmed using the React framework

Repository: <https://github.com/mgerszendorf/Acme>

EDUCATION

B.S. IN COMPUTER SCIENCE

WSB POZNAN

2020 - 2024

MECHATRONICS TECHNICIAN

ZS1 SWARZEDZ

2016 - 2020

LANGUAGES

ENGLISH A2/B1

POLISH NATIVE

SKILLS

HTML

C# - basic level

FIGMA
